THE papers here collected are written solely for members of the Masonic Order, constituted under the United Grand Lodge of England. To all such they are offered in the best spirit of fraternity and goodwill and with the wish to render to the Order some small return for the profit the author has received from his association with it extending over thirty two years. They have been written with a view to promoting the deeper understanding of the meaning of Masonry; to providing the explanation of it that one constantly hears called for and that becomes all the more necessary in view of the unprecedented increase of interest in, and membership of, the Order at the present day. The meaning of Masonry, however, is a subject usually left entirely unexpounded and that accordingly remains largely unrealized by its members save such few as make it their private study; the authorities of what in all other respects is an elaborately organized and admirably controlled community have hitherto made no provision for explaining and teaching the "noble science" which Masonry proclaims itself to be and was certainly designed to impart.
