Robin Paul Malloy

Law in a Market Context: An Introduction to Market Concepts in Legal Reasoning Robin Paul Malloy
In *Law in a Market Context* Robin Paul Malloy examines the way in which people, as social beings, experience the intersection of law, markets, and culture. His work recognizes that experience varies by such characteristics as culture, race, gender, age, and class, among others. Thus, market analysis must account for these variations. Through case examples, illustrative fact patterns, and problems based on hypothetical situations he demonstrates the implications and the ambiguities of law in a market society. In his analysis he provides a complete and accessible introduction to a vast array of economic terms, concepts, and ideas - making this book a valuable primer for anyone interested in understanding the use of market concepts in legal reasoning.
