EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao

The first EPMESC Conference took place in 1985. It was during the Conference, recognising the success it had been, that the promoters decided to organise other EPMESC conferences, giving birth to a new series of international meetings devoted to computational methods in engineering.

The variety of subjects covered by the papers submitted to the 7th Conference demonstrates how much computational methods expanded and became richer in their applications to Science and Technology. New paradigms are being cultivated as non-numerical applications started to compete with the more traditional numerical ones. The scientific and technological communities to which the EPMESC Conferences used to be addressed themselves have changed.

The two-volume Proceedings that we achieved to gather represent many of the interesting developments that are taking place, not only in the Asia Pacific Region, but also in some other scientifically advanced parts of the World, and cover a vast list of subjects grouped under the following headings: Applied Mathematics; Physics and Materials Science; Solid Mechanics; Finite Element and Boundary Element Methods; Structural Analysis; Structural Dynamics and Earthquake Engineering; Structural Engineering; Reinforced Concrete; Knowledge-Based Systems; Artificial Neural Networks and Genetic Algorithms; Computer-Aided Instruction; Computer-Aided Design and Computer-Aided Engineering; Geographic Information Systems; Environmental Applications; Road Engineering; Geotechnics; Soil Mechanics; Fluid Mechanics and Hydraulics.

Two hundred and fifty one summaries were accepted, many of them with comments and restrictions, by the Programme Committee.

From these, 153 papers resulted, many of them from Portuguese and Chinese origin, that were submitted to the revision of an international panel of referees from Australia, Belgium, Brazil, China, Italy, Macao, Portugal, Switzerland, United Kingdom and United States, to which we gladly acknowledge our gratitude and appreciation.

From reader reviews:

Victor Shepard:

The book EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao gives you the sense of being enjoy for your spare time. You should use to make your capable much more increase. Book can to be your best friend when you getting pressure or having big problem together with your subject. If you can make studying a book EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao to be your habit, you can get much more advantages, like add your capable, increase your knowledge about a number of or all subjects. You could know everything if you like open and read a e-book EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao. Kinds of book are a lot of. It means that, science publication or encyclopedia or other individuals. So , how do you think about this guide?

Calvin Lee:

What do you with regards to book? It is not important with you? Or just adding material when you really need something to explain what yours problem? How about your free time? Or are you busy man? If you don't have spare time to try and do others business, it is make you feel bored faster. And you have free time? What did you do? Everyone has many questions above. The doctor has to answer that question because just their can do that. It said that about reserve. Book is familiar on every person. Yes, it is correct. Because start from on guardería until university need this particular EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao to read.

Evan Reyes:

Reading a e-book tends to be new life style within this era globalization. With looking at you can get a lot of information that may give you benefit in your life. With book everyone in this world can certainly share their idea. Publications can also inspire a lot of people. Many author can inspire their very own reader with their story or perhaps their experience. Not only the storyline that share in the ebooks. But also they write about the information about something that you need instance. How to get the good score toefl, or how to teach your young ones, there are many kinds of book which exist now. The authors nowadays always try to improve their skill in writing, they also doing some research before they write on their book. One of them is this EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao.

Eric Saunders:

As a pupil exactly feel bored to help reading. If their teacher expected them to go to the library in order to make summary for some e-book, they are complained. Just little students that has reading's internal or real

their pastime. They just do what the instructor want, like asked to the library. They go to presently there but nothing reading significantly. Any students feel that reading through is not important, boring and also can't see colorful photos on there. Yeah, it is being complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore , this EPMESC VII: International Conference on Enhancement and Promotion of Computational Methods in Engineering and Science, 2-5 August 1999, Macao can make you experience more interested to read.
