Radical Otherness: Sociological and Theological Approaches (Gender, Theology and Spirituality) Lisa Isherwood, David Harris

The problem of otherness is central to debates in both the social sciences and theology. To define the other – by colour, gender, politics, nationality, or religion – is to define the self. Othering has been used through history as a justification for boundary-setting, for conflict and for oppression. *Radical Otherness* presents a broad overview of otherness in both sociology and theology. The book reveals how social theory can illuminate many contemporary issues in theology, whilst the examination of theological methods can shed light on problematic issues in sociology. The discussion of issues in *Radical Otherness* moves from the personal to the political, to the hermeneutic, to the ultimate otherness of metaphysics. At each stage, discussion of theory is grounded in concrete examples. The book offers students of ethics, theology, and sociology of religion a clear and engaged assessment of otherness, and opens up new ways for investigating a concept central to the study of both religion and society.
