Tech Job Hunt Handbook: Career Management for Technical Professionals Kevin W. Grossman

Tech Job Hunt Handbook is a career management book—just for technology professionals—that reflects today’s new economic realities. The world of work is constantly changing, and staying professionally relevant while competing for more specialized tech jobs in areas like cloud computing, mobile and social applications, and big data in a highly competitive global economy is critical. The world is churning out hungry programmers and developers in record numbers, making the global labor market highly competitive. It is now essential to plan a campaign to get a better job as well as your overall career. Retooling your skills and re-branding yourself is mandatory whether you’re seeking a new job or intent on retaining current employment.

Readers of the *Tech Job Hunt Handbook* will find tools, practical guidance, and recommendations on how to find the best new tech jobs, how to get noticed, how to ace interviews and get hired, and how to keep those new jobs—until it’s time for a better one. As you will learn, learning how to assess and then invest in career management skills leads to long-term competitive advantage and a happier working life.

Tech Job Hunt Handbook—for recent graduates, risk-taking innovators, and tech veterans alike—shows how to build a comprehensive online professional profile, identify the companies you’re interested in and who you know at those companies, approach interviews with confidence, uncover opportunities in your current company, and understand the new emerging technology markets that could lead to a career rebirth. This book will help you:

- Find a new or better tech job.
- Stay relevant and employable despite constant new developments.
- Manage your tech career for long-term success.

What you’ll learn

- Why it’s essential to adapt quickly in today’s job market.
- Why pursuing degrees, certifications, and new skills are more important than ever.
- How to create a comprehensive online profile, consistent across online networks, that shines a light on your skills and capabilities.
- How to spot the best-run companies, identify who you know in them, and grow networks that lead to new and better jobs.
- How to make the most of the latest technology--online assessments, interactive video interviews, etc.--to put your best foot forward at all times.
- How to win hearts and minds during the hiring interview.
- How to determine when it’s time to consider a career change and how to go about it effectively.
- How to find work in today’s emerging tech disciplines: cloud, social technologies, mobile, big data, and analytics.
- How to transform yourself into someone companies view as a great investment.

Who this book is for

Tech Job Hunt Handbook is for the technology professional seeking new employment or retaining current employment in today's ever-changing, ever-more-competitive world of work. It's for those just graduating from college, risk-taking innovators, and project-hardened developers with decades of experience alike. *Tech Job Hunt Handbook* is the right choice for technology professionals ready to retool and re-brand their workplace persona and their skills, get a much better job, and stay employed in satisfying positions no matter how the economy or job market changes.

The Enjoyable agreement here cannot be questionable, such as treasuring beautiful island. So do you still want to miss that? Find this book as well as read it from now!

Timothy Duchene:

As a scholar exactly feel bored for you to reading. If their teacher asked them to go to the library in order to make summary for some e-book, they are complained. Just minor students that has reading's spirit or real their passion. They just do what the trainer want, like asked to go to the library. They go to presently there but nothing reading really. Any students feel that examining is not important, boring and also can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's

country. Therefore , this Tech Job Hunt Handbook: Career Management for Technical Professionals can make you really feel more interested to read.
