Who Moved My Dentures? 13 False (Teeth) Truths About Long-Term Care and Aging in America

Anthony Cirillo

Who Moved My Dentures dispels 13 different myths about long-term care and aging in America as told through human interest stories of people the author has met through his work as a healthcare executive, advocate and entertainer for older adults. It was written to educate and lessen fear about long-term care facilities and also to dignify and increase respect for the residents living in these facilities who can inspire us all through their attitude and approach to life.

The book is perfect for baby boomers, families and caregivers. You can learn about these places in a non-threatening way through a book that is full of the heart and soul of the seniors who live there. There is useful information for choosing facilities, a glossary as well as information about the financing and policing of the industry.

The FOREWORD was written by Dr. Charles Roadman, past president of the American Healthcare Association.
