Statistical Data Mining Using SAS Applications, Second Edition (Chapman & Hall/CRC Data Mining and Knowledge Discovery Series) George Fernandez

Statistical Data Mining Using SAS Applications, Second Edition describes statistical data mining concepts and demonstrates the features of user-friendly data mining SAS tools. Integrating the statistical and graphical analysis tools available in SAS systems, the book provides complete statistical data mining solutions without writing SAS program codes or using the point-and-click approach. Each chapter emphasizes step-by-step instructions for using SAS macros and interpreting the results. Compiled data mining SAS macro files are available for download on the author's website. By following the step-by-step instructions and downloading the SAS macros, analysts can perform complete data mining analysis fast and effectively.

New to the Second Edition—General Features

- Access to SAS macros directly from desktop
- Compatible with SAS version 9, SAS Enterprise Guide, and SAS Learning Edition
- Reorganization of all help files to an appendix
- Ability to create publication quality graphics
- Macro-call error check

New Features in These SAS-Specific Macro Applications

- Converting PC data files to SAS data (EXLSAS2 macro)
- Randomly splitting data (RANSPLIT2)
- Frequency analysis (FREQ2)
- Univariate analysis (UNIVAR2)
- PCA and factor analysis (FACTOR2)
- Multiple linear regressions (REGDIAG2)
- Logistic regression (LOGIST2)
- CHAID analysis (CHAID2)

Requiring no experience with SAS programming, this resource supplies instructions and tools for quickly performing exploratory statistical methods, regression analysis, logistic regression multivariate methods, and classification analysis. It presents an accessible, SAS macro-oriented approach while offering comprehensive data mining solutions.

From reader reviews:

Candice Delgado:

Nowadays reading books are more than want or need but also turn into a life style. This reading routine give you lot of advantages. The huge benefits you got of course the knowledge the rest of the information inside the book that improve your knowledge and information. The info you get based on what kind of reserve you read, if you want get more knowledge just go with schooling books but if you want really feel happy read one together with theme for entertaining such as comic or novel. The Statistical Data Mining Using SAS Applications, Second Edition (Chapman & Hall/CRC Data Mining and Knowledge Discovery Series) is kind of guide which is giving the reader erratic experience.

Marian Storie:

Do you one of the book lovers? If so, do you ever feeling doubt while you are in the book store? Make an effort to pick one book that you never know the inside because don't determine book by its deal with may doesn't work this is difficult job because you are frightened that the inside maybe not while fantastic as in the outside appear likes. Maybe you answer may be Statistical Data Mining Using SAS Applications, Second Edition (Chapman & Hall/CRC Data Mining and Knowledge Discovery Series) why because the great cover that make you consider regarding the content will not disappoint an individual. The inside or content is usually fantastic as the outside or even cover. Your reading 6th sense will directly assist you to pick up this book.

Bruce Harrison:

In this time globalization it is important to someone to acquire information. The information will make someone to understand the condition of the world. The condition of the world makes the information simpler to share. You can find a lot of sources to get information example: internet, newspapers, book, and soon. You can view that now, a lot of publisher this print many kinds of book. The book that recommended for you is Statistical Data Mining Using SAS Applications, Second Edition (Chapman & Hall/CRC Data Mining and Knowledge Discovery Series) this book consist a lot of the information in the condition of this world now. This specific book was represented just how can the world has grown up. The vocabulary styles that writer use for explain it is easy to understand. Often the writer made some investigation when he makes this book. That's why this book suitable all of you.

Frank Foushee:

Reserve is one of source of knowledge. We can add our know-how from it. Not only for students but native or citizen require book to know the update information of year to help year. As we know those guides have many advantages. Beside most of us add our knowledge, may also bring us to around the world. By book Statistical Data Mining Using SAS Applications, Second Edition (Chapman & Hall/CRC Data Mining and Knowledge Discovery Series) we can acquire more advantage. Don't you to be creative people? To get

creative person must prefer to read a book. Only choose the best book that acceptable with your aim. Don't be doubt to change your life with that book Statistical Data Mining Using SAS Applications, Second Edition (Chapman & Hall/CRC Data Mining and Knowledge Discovery Series). You can more inviting than now.
