Revive Your Mainline Congregation: Prescriptions for Vital Church Life Robert D. Schieler

Why are mainline churches in such dire straits. Schieler meets that it is because most churches are doing the same things in the same ways they were doing them 35 to 50 years ago, and the lack of change has caused declines in mainline churches. For example, the United Church of Christ has lost more than 700,000 members and more than 1,000 churches since 1965. Schieler delineates distinguishing characteristics of living versus dying churches and shares what needs to be done to turn churches around, and how mainline churches are surviving in this current age. He also contends that there are some basic biblical theological understandings of the nature and mission of the church--many things that churches have ignored or rebelled against, and reviews the following areas, authority, which mission churches degenerate, worship, stewardship, Christian education, pastoral congregational care, wider outreach, and building and property.
