**How to Memorize All the U.S. Presidents and Anything Else You Need to Remember?** Johnny Frog Do you have trouble remembering names, figures, people, places and things? Do you wish that there was a system that you and your children could comprehend that could improve your memory skills? How to memorize all the US Presidents and anything else you need to remember? offers a fail proof, easy to understand technique that will enable you to use the full power of your brain. Dr. Johnny Frog's method of learning is based on the Major system combining a mixture of images, words, letters and figures drawn only once, instead of repetitiously, forcing your brain to work a new way; by doing so, the left part of the brain is inhibited from capturing information, enabling you to use the full power of the massive parallelism of the brain. You'll find Dr. Frog's system fun and user-friendly-set up so that it seems a game, not drudgery. As a student, an executive or simply with the kids, you'll find your memory skills vastly improved once you've learned the ground rules of the system. Impress your friends as you rattle off all 44 Presidents, their terms in the White House, and the dates they served-all from memory! Dr. Johnny Frog is a writer and a senior executive working for renowned pharmaceutical companies worldwide. Not only does he know the names of over 700 of his employees, he can match the name to a face. Dr. Frog is currently writing his next book on memory skills and has written several novels. He lives with his wife and children in Geneva at the border between France and Switzerland.
