Handbook of Pediatric Cardiovascular Drugs Ricardo Munoz, Carol G. Vetterly, Stephen J. Roth, Eduardo M. Da Cruz

This handbook of drugs used in pediatric cardiac care will satisfy the need for a quick reference source of common drug therapy. There are no major texts available in the field of pediatric cardiology that exclusively provide therapeutic drug information. Several sources are available that present drug information for cardiology, but these place no emphasis on pediatric care and are written for general cardiac specialists.
