## **CENTER, Volume 14: On Landscape Urbanism** various

The theme of this volume is Landscape Urbanism with the agenda of linking emergent theories of Landscape Urbanism with its contemporary practice. While a few recent symposiums and articles have addressed components of the subject, the underlying theoretical trajectory of this emergent field has still not been codified in an accessible way. The publication of Volume 14 of CENTER will fill this void with the inclusion of a reprint series of historically significant texts, combined with original articles by noted authors and emerging practitioners.
