Color by Number: Understanding Racism Through Facts and Stats on Children Art Munin

"For those who haven't given much thought to race matters, this volume could serve as an inoculation against the twisted political siren song of the far-right, providing sufficient knowledge so as to weaken the appeal of those who would manipulate their racial fears, anxieties and insecurities, or try and deny the reality of racial inequality so as to push a colorblind – and therefore, injustice-blind – agenda. And for those already committed to racial equity and justice, the contents herein could be even more important: providing us with the factual information needed to go forth and mobilize others to the cause, not to mention reminding us of just how important is the task which lay ahead. I welcome this addition to the literature already extant on race and racism. It is long overdue."?Tim Wise, Author, *White Like Me* and *Dear White America*

Through the cumulative effect of official statistics rather than the more usual reliance on anecdote – by taking a “show me the numbers!” approach – this book will open minds, start conversations, and even prompt readers to take action.
