This enlightening book makes visible the lives and works of women who played a critical role in the development of geography as an academic field.

- A rare and detailed analysis of the geographical work of 30 individual women geographers from 1850 to 1970
- Includes oral histories from women who have held appointments in British universities since World War II
- Makes the work of women geographers visible and challenges the notion of pre 1970s geography as an overwhelmingly masculine field
- Makes an important contribution to debates about the theoretical and methodological framing of the historiography of geography
