I rifiuti (Farsi un'idea) (Italian Edition) Antonio Massarutto

Quella che un tempo era la cenerentola dei servizi pubblici è diventato uno dei problemi più pressanti del nostro tempo. Oggi i rifiuti evocano veleno e distruzione dell'ambiente; ogni italiano ne produce circa 1 kg e mezzo al giorno, di cui una buona parte finisce in discariche in via di esaurimento, quantità crescenti ma insufficienti vengono recuperate, e altre fanno perdere le tracce in modi alquanto sospetti. Tuttavia, gestire i rifiuti in modo corretto si può: richiede una strategia complessa, volta a ridurre le quantità da smaltire e il loro potenziale nocivo, coinvolgendo il sistema produttivo e responsabilizzando i cittadini. Ma servono anche soluzioni tecnologiche efficienti che permettano di gestire quei rifiuti che comunque non si potranno riciclare.
