## **Android Application Programming with OpenCV 3** Joseph Howse

Android Application Programming with OpenCV 3 is a practical, hands-on guide to computer vision and mobile app development. It shows how to capture, manipulate, and analyze images while building an application that combines photography and augmented reality. To help the reader become a well-rounded developer, the book covers OpenCV (a computer vision library), Android SDK (a mobile app framework), OpenGL ES (a 3D graphics framework), and even JNI (a Java/C++ interoperability layer).

Now in its second edition, the book offers thoroughly reviewed code, instructions, and explanations. It is fully updated to support OpenCV 3 and Android 5, as well as earlier versions. Although it focuses on OpenCV's Java bindings, this edition adds an extensive chapter on JNI and C++, so that the reader is well primed to use OpenCV in other environments.

### From reader reviews:

#### **Eddie Nelson:**

In this 21st century, people become competitive in most way. By being competitive currently, people have do something to make these individuals survives, being in the middle of the particular crowded place and notice simply by surrounding. One thing that at times many people have underestimated this for a while is reading. That's why, by reading a reserve your ability to survive boost then having chance to stand than other is high. For you personally who want to start reading some sort of book, we give you this specific Android Application Programming with OpenCV 3 book as beginning and daily reading reserve. Why, because this book is greater than just a book.

#### **Rina Reese:**

The event that you get from Android Application Programming with OpenCV 3 is a more deep you digging the information that hide inside the words the more you get thinking about reading it. It does not mean that this book is hard to know but Android Application Programming with OpenCV 3 giving you thrill feeling of reading. The article author conveys their point in selected way that can be understood by means of anyone who read this because the author of this guide is well-known enough. That book also makes your own personal vocabulary increase well. Therefore it is easy to understand then can go together with you, both in printed or e-book style are available. We advise you for having this kind of Android Application Programming with OpenCV 3 instantly.

#### **Samantha Peay:**

Reading a e-book can be one of a lot of exercise that everyone in the world adores. Do you like reading book consequently. There are a lot of reasons why people like it. First reading a guide will give you a lot of new details. When you read a publication you will get new information due to the fact book is one of many ways to share the information or even their idea. Second, reading a book will make anyone more imaginative. When you reading a book especially fiction book the author will bring that you imagine the story how the figures do it anything. Third, you are able to share your knowledge to others. When you read this Android Application Programming with OpenCV 3, you could tells your family, friends as well as soon about yours publication. Your knowledge can inspire average, make them reading a publication.

#### **Jason Probst:**

Spent a free time to be fun activity to do! A lot of people spent their free time with their family, or their friends. Usually they doing activity like watching television, planning to beach, or picnic from the park. They actually doing ditto every week. Do you feel it? Do you wish to something different to fill your current free time/ holiday? Could possibly be reading a book might be option to fill your cost-free time/ holiday. The first thing that you will ask may be what kinds of reserve that you should read. If you want to attempt look for book, may be the e-book untitled Android Application Programming with OpenCV 3 can be very good book to read. May be it is usually best activity to you.
