Self Assessment in Paediatric Musculoskeletal Trauma X-rays Karen Sakthivel-Wainford

Many nurse practitioners and radiographer practitioners view paediatric trauma radiographs with a certain amount of trepidation. Rightly so – paediatric radiographs can be difficult to interpret, requiring additional learning and experience, but that is the challenge, and interest of paediatric trauma. The aim of this book is to assist with that professional development. There are 100 case studies each with radiograph image. The book is designed to support whatever course you have done whether reporting, ‘red dotting’ or commenting or to encourage you to go on ‘that course’. It can be used as a revision book, a study aid, or to help in preparation for an assessment. However you use the book it will encourage you to read more and research more into musculoskeletal trauma and its radiographic appearance; for it is a fascinating topic and there is always more to learn!
