Oggetti da ascoltare: Hifi, iPod e consumo delle tecnologie musicali (Studi e ricerche) (Italian Edition)

Paolo Magaudda

Ascoltare musica è un'attività culturale strettamente legata all'uso di particolari dispositivi tecnologici come gli impianti hifi, i lettori cd e i riproduttori di musica digitale. Il consumo di tecnologie non si limita a influenzare abitudini e gusti musicali, ma più in generale contribuisce a trasformare le relazioni, le amicizie, le identità e perfino gli ambienti in cui gli ascoltatori vivono. Partendo da racconti in prima persona di esperienze fatte con diversi «oggetti sonori» – dai dischi in vinile ai lettori digitali come l'iPod, dagli amplificatori analogici ai personal computer – il libro mostra come le implicazioni dell'uso di queste tecnologie contribuiscano a trasformare il nostro contesto sociale e relazionale quotidiano.
