The Practice of Magical Evocation Franz Bardon

A tireless worker for the Light, Franz Bardon left behind him four legendary books which have become acknowledged classics of occult literature. The Practice of Magical Evocation is the second work in Bardon's opus, and thoroughly unique. In magical terms, the book is a practical guide to the proper evocation of and communication with spiritual, magical and divine entitles. It is perhaps the only truly significant modern study of direct contact with the universal teachers — the other major works in the field are products of the Medieval, Renaissance, and Reformation periods. The Practice of Magical Evocation is also unique in terms of its depth and complexity. Not only does it provide a powerful intellectual rationale for and explanation of the art of evocation itself, it also outlines the actual practice of the art in great detail, including instruction as to the creation of magic wands, circles, garments, and so on. This book provides a fascinating glimpse into a magical universe.
