Natural Product Chemistry at a Glance

Stephen P. Stanforth

Natural Product Chemistry at a Glance Stephen P. Stanforth

Natural products have been a fertile area of chemical investigation for many years, driving the development of both analytical chemistry and of new synthetic reactions and methodologies. Many of the most important synthetic reactions in chemistry have been developed in the quest to characterise and synthesise these materials.

Natural Product Chemistry at a Glance provides a concise overview of the main principles and reactions of natural product chemistry, for students studying chemistry and related courses at undergraduate level. Based on the highly successful and student friendly “at a glance” approach, the material developed in this book has been chosen to reinforce the principles of elementary organic reactions and to highlight the similarity between many organic reactions and biological processes. It will also serve as an initial platform for more advanced excursions into the origin of natural products.

Students using Natural Product Chemistry at a Glance will find they have a resource with which they can quickly, economically and confidently acquire, regularly review and revise the basic facts that underpin the biosynthesis and chemistry of natural products.

From reader reviews:

Arturo McDaniel:

Now a day individuals who Living in the era where everything reachable by connect to the internet and the resources within it can be true or not involve people to be aware of each data they get. How a lot more to be smart in acquiring any information nowadays? Of course the answer is reading a book. Studying a book can help folks out of this uncertainty Information particularly this Natural Product Chemistry at a Glance book because this book offers you rich facts and knowledge. Of course the information in this book hundred pct guarantees there is no doubt in it as you know.

Tenesha Little:

The book Natural Product Chemistry at a Glance will bring you to the new experience of reading any book. The author style to clarify the idea is very unique. In case you try to find new book to study, this book very appropriate to you. The book Natural Product Chemistry at a Glance is much recommended to you you just read. You can also get the e-book in the official web site, so you can quicker to read the book.

James Vera:

Your reading sixth sense will not betray you, why because this Natural Product Chemistry at a Glance book written by well-known writer who really knows well how to make book which might be understand by anyone who have read the book. Written in good manner for you, leaking every ideas and composing skill only for eliminate your own hunger then you still skepticism Natural Product Chemistry at a Glance as good book but not only by the cover but also with the content. This is one reserve that can break don't ascertain book by its protect, so do you still needing an additional sixth sense to pick this!? Oh come on your looking at sixth sense already alerted you so why you have to listening to an additional sixth sense.

Bertha Greene:

As a scholar exactly feel bored to reading. If their teacher expected them to go to the library or make summary for some reserve, they are complained. Just little students that has reading's internal or real their interest. They just do what the trainer want, like asked to go to the library. They go to there but nothing reading really. Any students feel that reading through is not important, boring as well as can't see colorful pictures on there. Yeah, it is being complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this Natural Product Chemistry at a Glance can make you really feel more interested to read.
