Eric Foner

Reconstruction Updated Edition: America's Unfinished Revolution, 1863-18 Eric Foner

With a New Introduction

From the "preeminent historian of Reconstruction" (*New York Times Book Review*), a newly updated edition of the prizewinning classic work on the post-Civil War period that shaped modern America

Eric Foner's "masterful treatment of one of the most complex periods of American history" (*New Republic*) redefined how the post-Civil War period was viewed.

Reconstruction chronicles the way in which Americans—black and white—responded to the unprecedented changes unleashed by the war and the end of slavery. It addresses the quest of emancipated slaves searching for economic autonomy and equal citizenship, and describes the remodeling of Southern society, the evolution of racial attitudes and patterns of race relations, and the emergence of a national state possessing vastly expanded authority and committed, for a time, to the principle of equal rights for all Americans.

This "smart book of enormous strengths" (*Boston Globe*) remains the standard work on the wrenching post-Civil War period—an era whose legacy still reverberates in the United States today.
