~Soundings~: Exploring the Depths of God and the Universe Frank L. Jordan III

A new dynamic has been discovered concerning the relationship between God and the universe.

You'll find it in the first verse essay of ~SOUNDINGS~, beginning with a statement, followed by two questions:

*God, who is Ultimate Reality and Truth,
would not bring into existence
anything less than real or true, it would seem.
With this in mind, could the newly created universe—
the early space-time continuum—
have been anything other than it was?
Could the primordial light and elements,
with their forces of electromagnetism and gravity,
have been anything other than they were?*

Thus begins a spiritual quest, ranging from the dawn of time to the summit of contemporary civilization. Embark on a journey with Frank L. Jordan III as he unravels some of the oldest known mysteries pertaining to God and the universe—mysteries involving the problem of evil, and of God's role in connection with death, accidents, natural disasters, and disease. Equipped with a new philosophy called derivism*, Jordan methodically chips away at the barriers between us and God, while pointing to a true avenue of healing ... an *exalted way*.
