Mobile Web Development

Nirav Mehta

Mobile Web Development Nirav Mehta
The author adopts a fast-paced, practical approach to developing for the mobile web. The book focuses on solutions, pragmatic tips, and fast results rather than theory. Each chapter focuses on an aspect of taking a pizza delivery company onto the mobile web. This ensures that the chapters remain practical and realistic, focusing on getting things done. The book also provides discussion and reference material to help you apply the techniques to your own projects. This book is for web developers who want to provide mobile support for their applications. The book assumes some knowledge of HTML, CSS, and JavaScript. The reader should also know a server-side language. The examples in the book use PHP, but can be adapted easily to other languages. The book does not use J2ME, focusing instead on using the phoneâ€™s web browser and other standard features.

From reader reviews:

Joshua Mack:

Nowadays reading books be a little more than want or need but also turn into a life style. This reading routine give you lot of advantages. The advantages you got of course the knowledge the actual information inside the book this improve your knowledge and information. The details you get based on what kind of publication you read, if you want drive more knowledge just go with knowledge books but if you want truly feel happy read one along with theme for entertaining for instance comic or novel. The actual Mobile Web Development is kind of book which is giving the reader capricious experience.

Eileen Vaughan:

Your reading 6th sense will not betray anyone, why because this Mobile Web Development publication written by well-known writer who really knows well how to make book which might be understand by anyone who read the book. Written with good manner for you, leaking every ideas and publishing skill only for eliminate your current hunger then you still question Mobile Web Development as good book not simply by the cover but also with the content. This is one publication that can break don't judge book by its protect, so do you still needing an additional sixth sense to pick this particular!? Oh come on your looking at sixth sense already told you so why you have to listening to a different sixth sense.

Jill Williams:

In this period globalization it is important to someone to find information. The information will make professionals understand the condition of the world. The health of the world makes the information quicker to share. You can find a lot of recommendations to get information example: internet, paper, book, and soon. You will see that now, a lot of publisher that will print many kinds of book. The particular book that recommended for you is Mobile Web Development this reserve consist a lot of the information on the condition of this world now. This book was represented how can the world has grown up. The language styles that writer make usage of to explain it is easy to understand. Typically the writer made some analysis when he makes this book. This is why this book appropriate all of you.

Bruce Patton:

This Mobile Web Development is new way for you who has attention to look for some information as it relief your hunger of knowledge. Getting deeper you into it getting knowledge more you know otherwise you who still having small amount of digest in reading this Mobile Web Development can be the light food for you because the information inside this specific book is easy to get by means of anyone. These books develop itself in the form which can be reachable by anyone, yes I mean in the e-book type. People who think that in book form make them feel sleepy even dizzy this reserve is the answer. So there is not any in reading a e-book especially this one. You can find actually looking for. It should be here for a person. So , don't miss it! Just read this e-book type for your better life in addition to knowledge.
